PROFESSIONAL SUMMARY

Final-year AI & ML student building production-grade **GenAI** and **Agentic AI** systems using **Python**, **n8n**, **RAG**, **LLMs** and **workflow automation**. Experienced in designing AI-powered workflows and business automation platforms.

TECHNICAL SKILLS

Automation & Workflow: n8n, Google Apps Script, Make (Integromat), Zapier, Tally, Mailchimp

GenAI: LLMs Prompt Engineering RAG Vapi Google Gemini API

Agentic AI: n8n Workflow Automation Google Apps Script Zapier Make

Data & Analytics: Google Sheets (advanced logic & scripting), Looker Studio, CRM Automation, Lead Scoring

Development: Report Lab, Backend, Flask, SQLite, REST APIs, JavaScript (basics), Git / GitHub

Business Systems: Revenue - Operations, Cold Outreach Systems, Business Process Automation, ATS Integrations

Design: Figma, Canva, Adobe Photoshop.

Languages: English (professional), Hindi (native), Japanese (conversational).

PROJECTS

ARC - Agentic AI Recruitment Platform

2026 - Present

- Architected a **multi-agent recruitment platform** that automates candidate sourcing, **AI screening**, personalized outreach, interview scheduling and recruiter briefing through **autonomous workflow orchestration**.
- Developed **4 autonomous workflows** integrating **LLMs**, **Supabase**, **Vapi**, **REST APIs** and **n8n**, enabling **persistent AI conversations**, **automated decision making** and scalable recruitment pipelines.

Tech Stack: Gemini API, n8n, Supabase, Vapi, REST APIs, JavaScript

<https://github.com/AahilahmedBN/ARC-Agentic-Recruitment-Platform>

TRIP - AI-Powered Revenue Intake Platform

Jan 2026 - Mar 2026

- Built an end-to-end **AI revenue intake system** automating **lead qualification**, scoring, routing and appointment scheduling for B2B sales teams.
- Developed a **HOT/WARM/COLD lead scoring** engine and automated outreach workflows targeting **500+ B2B SaaS companies**, improving pipeline visibility and reducing manual effort.

Tech Stack: Google Apps Script, Google Sheets, n8n, Looker Studio

<https://github.com/AahilahmedBN/TRIP-Revenue-Intake-Protocol-Revenue-Control-Infrastructure->

AI Workflow Automation System - Med Spa Operations

Jan 2025 - Jan 2026

- Built an **end-to-end workflow automation** system using n8n to automate **lead capture**, follow-ups, **appointment scheduling** and **CRM updates** for a Med Spa business.
- Designed **conditional workflow logic** and **Google Sheets CRM** integration, reducing manual administration and improving lead response time.

Tech Stack: n8n, Google Sheets, Google Forms, Conditional Logic

<https://github.com/AahilahmedBN/AI-Workflow-Automation-System-for-Med-Spa-Operations-n8n->

AI-Powered Outreach & Client Acquisition System

Aug - Oct 2025

- Developed an automated outbound system reaching **1,000+ B2B prospects** with **scheduled email campaigns**, **CRM tracking** and multi-step follow-up workflows.
- Engineered timezone-aware automation, rotating email templates and configurable campaign controls using **Google Apps Script** and **n8n**.

Tech Stack: Google Apps Script, Google Sheets, n8n

EDUCATION

B.E. - CSE, Artificial Intelligence & Machine Learning

D.Y. Patil College of Engineering & Technology, Kolhapur
2023– 2027

ACHIEVEMENTS

- Smart India Hackathon 2025 - Team Lead**, AI-based Railway Track Disruption Detection
- Co-author** - "Enhancing Placement Readiness Through AR/VR-Based Mock Interview Simulation" (2025)
